

FOR IMMEDIATE RELEASE

AquaMost, Inc. Adds Robert Gaudin to Board of Directors, Closes Convertible Debt Round

- Robert Gaudin Named to Board of Directors
- Convertible Debt Round for Working Capital Closed

MADISON, WI (July 19, 2013) – AquaMost, Inc. announced today it has named Robert Gaudin to its Board of Directors. This strategic addition adds to the company's positioning in the oil and gas industry. Gaudin is the Founder and CEO of Holland Services, a complete energy land services company, serving the oil and gas industry for over 30 years.

"Robert brings tremendous industry experience, understanding and relationships," said Todd Asmuth, AquaMost CEO. "This market knowledge is critical as AquaMost grows in the water treatment segment of the oil and gas industry."

Gaudin's involvement at Holland Services provides vast experience in upstream, midstream and downstream land services. Gaudin comments on the recent appointment, "My first job after college graduation was with the New York State Attorney General's office overseeing water purification legal affairs. This foundation translated into becoming one of the hundreds of thousands of energy environmentalists who are dedicated to a cleaner planet with water purification and sustainability as our objective. I'm proud to be a part of AquaMost's commitment to be a leader in playing an important role in these efforts."

In addition to the new Director, AquaMost, Inc. has closed a Convertible Debt Round.

"Over the past 12 months, interest in the AquaMost product has skyrocketed," said Mark Henrickson, Chief Financial Officer. "These funds will enable us to fill orders and deliver products quickly."

About AquaMost

AquaMost, Inc. is a manufacturer of water treatment products for the oil and gas industry. The AquaMost solution replaces chemical biocides with its PECO chemical-free biocide technology.
