### **Perform at Electric Daisy Carnival – Chicago!**

A stimulating opportunity presents itself to DJs and producers as we get closer to EDC's debut in Chicago May 24<sup>th</sup> – 26<sup>th</sup>.

WomStreet, in partnership with Insomniac, invites you to enter the Discovery Project for the chance to play at the festival, be considered for Insomniac's music marketing platform, and get featured on the EDC and Do312 websites.

To enter, participants must remix Bad Boy Bill's track "Unsaid" ft. Tamra Keenan and capture a thirty-minute audio recording of your mix.

Submissions will be judged on quality, but special consideration will be given to the entries that exhibit strong promotional skills and leadership qualities. One contestant will win "popular vote", giving them priceless exposure on the EDC, Do312, and WomStreet websites.

Also, a second group of winners will be invited to perform at GlowRun Chicago and Afterglow on June 1<sup>st</sup>.

Entry submission is now open to participants, with voting opening up on April 15<sup>th</sup>.
